UI/UX Design Specification

Salon Management & Booking Website

For: Design Team

Version 1.0

Welcome to the Salon Website Project! This document is your creative compass. It outlines exactly what pages you need to design and how users will flow through them. Think of this as your roadmap use your creativity within these guardrails to create something beautiful and functional.

Design Philosophy

Before diving into pages, here is the north star for your designs:

Principle	**Description**
Luxurious yet Accessible	High-end feel but not intimidating warm, inviting, and easy to use
Visual-First	Let stunning imagery do the heavy lifting
Frictionless	Every click should feel natural, never confusing
Mobile-First	Design for mobile first, then expand to tablet and desktop
On-Brand	Consistent colors, typography, and mood throughout

Device Breakpoints

Design for these screen sizes:

Device	**Width**	**Priority**
Tablet	768 pixels	Secondary
Desktop	1440 pixels	Primary
Large Desktop	1920 pixels	Final polish

Site Map and Page Inventory

Here is every page you need to design, organized by section:

HOME

- Landing Page (1 page)
- Services Overview (1 page)
- Service Detail (1 page)
- Portfolio Gallery (1 page)
- Stylists (1 page)
- Stylist Profile (1 page)
- About Us (1 page)
- Contact and Location (1 page)
- Pricing (1 page)
- Promotions (1 page)
- FAQ (1 page)
- Blog (1 page)
- Blog Post (1 page)
- Gift Cards (1 page)
- 404 Not Found (1 page)

BOOKING FLOW

- Booking Step 1: Service Selection (1 page or screen)
- Booking Step 2: Stylist Selection (1 page or screen)
- Booking Step 3: Date and Time (1 page or screen)
- Booking Step 4: Your Info (1 page or screen)
- Booking Step 5: Payment (1 page or screen)
- Booking Confirmation (1 page or screen)

CLIENT ACCOUNT (Dashboard)

- Login (1 page)
- Sign Up (1 page)
- Forgot Password (1 page)
- Reset Password (1 page)
- Dashboard Home (1 page)
- Upcoming Appointments (1 page)
- Appointment History (1 page)

- Favorite Stylists (1 page)
- Payment Methods (1 page)
- Loyalty and Rewards (1 page)
- Profile Settings (1 page)
- Notification Preferences (1 page)

STAFF AREA (Internal)

- Staff Login (1 page)
- Staff Dashboard (1 page)
- Today Schedule (1 page)
- Weekly Schedule (1 page)
- Client Check-In and Out (1 page)
- Time-Off Requests (1 page)
- Commission Tracker (1 page)

ADMIN AREA (Management)

- Admin Login (1 page)
- Admin Dashboard (1 page)
- Appointments Manager (1 page)
- Clients Database (1 page)
- Staff Manager (1 page)
- Services Manager (1 page)
- Inventory Manager (1 page)
- Promotions Manager (1 page)
- Reports and Analytics (1 page)
- Business Settings (1 page)
- Email Templates (1 page)

TOTAL PAGES: Approximately 45 to 50 unique screens

User Flows (The Journeys)

Design these complete journeys, not just isolated pages.

Flow 1: New Client Booking (Most Important)

- START: Google or Social Media Ad
- Down arrow
- HOMEPAGE
- Vertical line with branch
- Left side branch: Sees hero image plus Book Now CTA
- Down arrow

BOOKING STEP 1: SERVICE SELECTION

- Vertical line with branches
- First branch: Scans service categories
- Second branch: Clicks on Haircut and Style
- Third branch: Sees service variants (Short, Medium, Long)
- Fourth branch: Selects service
- Down arrow

BOOKING STEP 2: STYLIST SELECTION

- Vertical line with branches
- First branch: Option A: Any Available Stylist (quickest)
- Second branch: Option B: Browses stylist profiles
- Third branch: Option C: No Preference
- Down arrow

BOOKING STEP 3: DATE AND TIME

- Vertical line with branches
- First branch: Interactive calendar (current month)
- Second branch: Available slots highlighted in green
- Third branch: Selects 2:30 PM on Thursday
- Down arrow

BOOKING STEP 4: YOUR INFORMATION

- Vertical line with branches
- First branch: Guest checkout option
- Second branch: OR Create Account toggle
- Third branch: Enter name, email, phone
- Fourth branch: Add notes (optional)
- Down arrow

BOOKING STEP 5: PAYMENT

- Vertical line with branches
- First branch: Option: Pay now (credit card)
- Second branch: Option: Pay in salon
- Third branch: Option: Apply gift card
- Fourth branch: Review summary
- Fifth branch: Confirm booking
- Down arrow

BOOKING CONFIRMATION

- Vertical line with branches
- First branch: Success message with confetti or celebration
- Second branch: Appointment details card
- Third branch: Add to Calendar buttons (Google, Apple, Outlook)
- Fourth branch: Text or Email confirmation sent
- Fifth branch: Related services upsell
- Down arrow
- EMAIL RECEIVED (not a page, but design the email template)

Flow 2: Registered Client Booking

START: Client Dashboard

- Down arrow
- LOGIN (if not already logged in)
- Down arrow

CLIENT DASHBOARD

- Vertical line with branch
- Branch: Book New Appointment CTA
- Down arrow

BOOKING STEP 1: SERVICE SELECTION

- Vertical line with branches
- First branch: Auto-filled with past services
- Second branch: Repeat Last Appointment shortcut
- Down arrow
- Continues through booking flow

- Down arrow

CONFIRMATION

- Vertical line with branch
- Branch: Added to Upcoming Appointments in dashboard

Flow 3: Browsing and Discovery

START: HOMEPAGE

- Vertical line with branch
- Branch: Our Work section or Instagram feed
- Down arrow

PORTFOLIO GALLERY

- Vertical line with branches
- First branch: Filter by: Hair, Nails, Makeup, etc.
- Second branch: Masonry grid of stunning photos
- Third branch: Hover or Click to see service details
- Down arrow

SERVICE DETAIL (from portfolio click)

- Vertical line with branches
- First branch: Service name, price, duration
- Second branch: Book This Service button
- Third branch: Related services
- Fourth branch: Stylists who specialize in this

Flow 4: Staff Daily Workflow

START: STAFF LOGIN

- Down arrow
- STAFF DASHBOARD
- Vertical line with branch
- Branch: Today Schedule card (most prominent)
- Down arrow

TODAY SCHEDULE

- Vertical line with branches

- First branch: Timeline view (9 AM to 7 PM)
- Second branch: Each appointment: Client name, service, duration
- Third branch: Color-coded: Confirmed, Checked-in, Completed
- Down arrow

APPOINTMENT DETAIL (click on any)

- Vertical line with branches
- First branch: Client notes and preferences
- Second branch: Service history with this client
- Third branch: Actions:
- Sub-branch: Check In (client arrived)
- Sub-branch: Start Service
- Sub-branch: Complete Service
- Sub-branch: Mark No-Show
- Sub-branch: Cancel
- Down arrow

POST-SERVICE

- Vertical line with branches
- First branch: Add service notes (visible to other staff)
- Second branch: Recommend retail products
- Third branch: Book next appointment prompt

Flow 5: Admin Management

START: ADMIN LOGIN

- Down arrow

ADMIN DASHBOARD

- Vertical line with branches
- First branch: Key metrics cards:
- Sub-branch: Today bookings
- Sub-branch: Revenue (today, week, month)
- Sub-branch: No-show rate
- Sub-branch: Top services
- Down arrow

QUICK ACTIONS (floating action button or top bar)

- Vertical line with branches

- First branch: Add new staff member
- Second branch: Create promotion
- Third branch: Add service
- Fourth branch: View all appointments
- Down arrow

APPOINTMENTS MANAGER

- Vertical line with branches
- First branch: Filter by: Date, Stylist, Status
- Second branch: Search clients
- Third branch: Create manual appointment (for walk-ins or phone calls)

Page-by-Page Design Requirements

HOMEPAGE (Critical)

Element	Required	Description
Hero Section	Yes	Full-bleed image or video with overlay text: Your Style, Our Passion (or brand tagline)
Primary CTA	Yes	Prominent Book Now button (sticky header version too)
Social Proof	Yes	5-star rating snippet, number of happy clients, awards
Service Highlights	Yes	3 to 4 service categories with icons and quick links
Featured Work	Yes	Portfolio carousel with best work
Meet the Team	Yes	Stylist cards with photos and Book with me
Testimonials	Yes	2 to 3 client quotes with photos
Instagram Feed	Yes	Live feed of recent posts
Location and Hours	Yes	Map, address, open hours
Newsletter	Optional	Email signup (optional but nice)

Footer	Yes	All links, contact, social, copyright

SERVICE CATALOG PAGE

Element	Required	Description
Category Filters	Yes	Tabs or chips: All, Hair, Nails, Spa, etc.
Service Cards	Yes	| Image plus Name plus Short description plus Price plus Duration plus Book button
Sort Options	Optional	By popularity, price low to high, duration
Search	Optional	Search services by name
Popular Badge	Optional	Most Popular flag on top services

SERVICE DETAIL PAGE

Element	Required	Description
Hero Image	Yes	High-quality service photo
Service Name	Yes	Large, clear typography
Description	Yes	Detailed write-up of what client gets
Price Table	Yes	If variants exist (Short hair: 50 dollars, Long hair: 75 dollars)
Duration	Yes	Clear time commitment
Book This Button	Yes	Prominent, sticky on mobile
Stylist Recommendations	Yes	These stylists specialize in this service
Related Services	Optional	You might also like
FAQs	Optional	Common questions about this service

PORTFOLIO GALLERY

Element	Required	Description
Filter System	Yes	Category, Stylist, Hair Type, etc.
Grid Layout	Yes	Masonry or uniform grid
Hover State	Yes	On desktop: show service name plus View
Lightbox	Yes	Click to enlarge, navigate between images
Before and After	Optional	Slider comparison for transformative services

BOOKING FLOW (5 Steps)

Design Principle: Each step should feel like a natural progression, not a jarring jump. Keep header with progress indicator and Back button.

Step 1: Service Selection

- Visual category tiles with icons
- Service list with radio buttons or select cards
- Duration and price visible
- Continue button at bottom

Step 2: Stylist Selection

- Option 1: Any Available Stylist (highlighted)
- Option 2: Stylist grid with photos, names, and Available badges
- Option 3: No Preference (fastest path)
- Back and Continue

Step 3: Date and Time

- Month navigation (previous December 2026 next)
- Calendar grid with:
- Available dates highlighted
- Unavailable dates grayed out
- Selected date has visual indicator

- Time slots appear after date selection:
- Morning, Afternoon, Evening sections
- Available times as buttons
- Limited slots show Only 2 left urgency
- Continue enabled only after time selected

Step 4: Your Information

Form fields:

- First Name (required)
- Last Name (required)
- Email (required)
- Phone (required)
- Notes or Requests (textarea)
- Toggle: Create an account for faster booking
- If yes, show password field
- If no, guest checkout
- Continue after validation

Step 5: Payment and Confirmation

- Summary card: Service, Stylist, Date, Time, Total
- Payment options:
- Credit Card (with Stripe, Apple Pay, Google Pay)
- Pay in Salon
- Gift Card
- If pay now: card number, expiry, CVC, zip
- Confirm Booking button
- Terms acceptance checkbox

Confirmation Screen

- Celebration animation (subtle confetti)
- You are all set heading
- Appointment card with all details
- Add to Calendar buttons (3 formats)
- Book Another Service button
- View My Appointments (if logged in)

CLIENT DASHBOARD

Design Principle: Clean, organized, feels like home base.

Dashboard Home

- Welcome message with name
- Upcoming appointment card (if any) - prominent
- Quick stats: Visits this year, Loyalty points
- Quick actions: Book, Gift cards, Profile

Upcoming Appointments

- List or card view of future appointments
- Each card: Date, Time, Service, Stylist, Status
- Actions: Reschedule, Cancel, Add to Calendar

Appointment History

- Past appointments list
- Each item: Service, Stylist, Date, Re-book button
- Leave Review option (if not already reviewed)

STAFF DASHBOARD

Design Principle: Functional, clear, no-nonsense. Tool-like feel.

Today, Schedule

- Timeline view (primary)
- List view (alternate)
- Current time indicator
- Status indicators: Confirmed, Checked In, In Progress, Completed, No Show
- Quick check-in button from list

ADMIN DASHBOARD

Design Principle: Data-rich but not overwhelming. Cards, charts, and lists.

Key Metrics

- Revenue (Today, Week, Month, custom range)
- Booking count

- No-show rate
- Top stylist
- Most booked service

Charts

- Bookings over time (line chart)
- Service popularity (pie or bar)
- Revenue by stylist (bar)

Recent Activity Feed

- New bookings
- Cancellations
- New client registrations

Components to Design (Reusable Elements)

Design these once, use everywhere:

Navigation Components

- Header (sticky, transparent on hero, solid on scroll)
- Logo
- Main nav links (Services, Portfolio, Stylists, About, Contact)
- Book Now button (primary)
- Login or Account icon
- Mobile hamburger menu

- Footer
- Logo plus tagline
- Quick links (3 to 4 columns)
- Social icons
- Newsletter signup
- Copyright
- Terms and Privacy links

- Mobile Menu (slide-in from right)
- Full navigation
- Book Now prominent

- Login and Register links

Content Components

- Service Card (image, title, price, duration, book button)
- Stylist Card (photo, name, title, specialty, Book button)
- Testimonial Card (photo, quote, name, rating stars)
- Blog Post Card (image, title, excerpt, date, read more)
- Pricing Table (service variants with prices)
- FAQ Accordion (question expands to answer)

Form Components

- Input Fields (text, email, tel, password, textarea)
- Dropdowns (custom styled, not browser default)
- Radio Buttons (custom styled)
- Checkboxes (custom styled)
- Date Picker (calendar interface)
- Time Picker (grid of time buttons)
- Search Bar (with icon, filters)

Feedback Components

- Toast Notifications (success, error, warning, info)
- Loading States (spinners, skeleton screens)
- Empty States (no appointments, no search results)
- Error States (form validation, 404)

Interactive Elements

- Buttons
- Primary (filled, high emphasis)
- Secondary (outlined, medium emphasis)
- Tertiary (text only, low emphasis)
- Icon buttons
- Tabs (for filtering)
- Pagination (or infinite scroll)

- Modals (lightboxes, confirmations)
- Tooltips (hover explanations)

User States to Design

For each component, design these states:

State	Description
DefaultNormal	Untouched
Hover	Mouse over (desktop only)
Active	Being clicked or tapped
Focus	Keyboard navigation
Disabled	Grayed out, not clickable
Error	Red highlight, error message
Success	Green highlight, success message
Loading	Spinner or skeleton
Empty	No content to show

Visual Design Guidelines

Typography

- Headlines: Elegant serif or modern sans-serif (depending on brand)
- Body: Highly readable sans-serif (Open Sans, Lato, Inter)
- Accents: Lightweight, stylish for numbers and prices
- Sizes: Establish clear hierarchy (H1, H2, H3, Body, Small)

Color Palette

- Primary: Your brand color (use for CTAs, links)
- Secondary: Complementary color (accents, highlights)
- Neutrals: Grays for text, backgrounds, borders
- Success: Green for confirmations
- Warning: Orange for alerts
- Error: Red for problems

- Info: Blue for notifications

Imagery Style

- All photos should feel cohesive (consistent editing or filter)
- Prioritize authentic, diverse representation
- Show work in progress (action shots), not just final results
- Warm, inviting lighting

Iconography

- Consistent style (outline or filled, rounded or sharp)
- Use icons to aid recognition, not as decoration
- Include essential icons: calendar, clock, user, cart, heart, etc.

Spacing and Grid

- Establish base unit (8 pixels recommended)
- Consistent padding and margins throughout
- Grid system for alignment

Shadows and Elevation

- Subtle shadows for cards
- Higher elevation for modals, dropdowns

Motion and Animation

- Smooth transitions between states
- Micro-interactions (button press feedback)
- Page transitions (optional but nice)

Accessibility Requirements

Standard	Must Have

Color Contrast	Text meets WCAG AA (4.5 to 1 normal, 3 to 1 large)
Keyboard Navigation	All interactive elements reachable with Tab
Screen Readers	Proper ARIA labels, semantic HTML
Focus Indicators	Visible focus states
Alt Text	All images have descriptive alt text
Form Labels	All fields have associated labels
Error Messages	Clear, helpful, announced to screen readers

Deliverables Checklist

When you are done, provide:

Phase 1: Foundation

- Mood board or style tile
- Color palette
- Typography system
- UI component library (Figma components)
- Icon set

Phase 2: Wireframes

- Low-fidelity wireframes for all pages (mobile)
- User flow diagrams
- Sitemap

Phase 3: High-Fidelity Designs

- All pages designed (mobile first)
- Tablet and desktop variations
- All interactive states
- All empty, error, and loading states

Phase 4: Prototype

- Clickable prototype linking key flows

- Micro-interactions demonstrated

Phase 5: Handoff

- Figma file with organized layers, components, and styles
- Design system documentation
- Asset exports (icons, logos, patterns)
- Developer annotations (spacing, behavior notes)

Priority Order (What to Design First)

Focus on this order to keep development moving:

1. Homepage (sets the tone, most important)
2. Booking Flow (core functionality)
3. Service Catalog plus Detail (content pages)
4. Client Dashboard (retention)
5. Stylist Profiles plus Portfolio (trust-building)
6. Staff Area (internal tools)
7. Admin Area (management)
8. All other pages (FAQ, Contact, Blog, etc.)

Questions to Ask Yourself

As you design, keep asking:

- Can a new visitor book in under 3 minutes?
- Is it obvious what to click next?
- Does this feel luxurious yet friendly?
- Will this look good on a small phone?
- Is the brand personality coming through?
- Have I designed the error state too?

Inspiration References

Look at these for inspiration (not copying):

- Glosslab - Clean, modern, membership-focused
- Drybar - Strong brand identity, great before and after

- R and Co - Editorial, artistic vibe
- Bumble and bumble - High-fashion, product-focused
- Squarespace Salon Templates - For layout inspiration
- Aesop - Minimalist, sensory, beautiful typography

Need Help?

If anything is unclear, ambiguous, or you have creative ideas that might improve the flow speak up This is a collaboration Your expertise matters

- Questions to discuss:
- Any pages missing
- Any flows feel clunky
- Need more reference examples
- Timeline concerns

Happy Designing

We are excited to see what you have created. This website will be the digital face of a beautiful salon experience make it stunning
